YOUR ADDRESS

The names and mailing addresses of registrants are listed as they appear in the records of the Board. If any of these addresses are not now correct, the Secretary of the Board should be notified in writing as to the correct address. Registrants should keep the office of the Secretary advised as to all changes of address.

March 1 is the final date for Roster listing and November 1 for the correct mailing address for the RENEWAL NOTICE.

A change of address is made **only** at the request of the individual. A new return address on an envelope is not construed as such a request.

BOARD ADDRESS
419 West Cleveland
Bozeman, Montana

TO THE PUBLIC

The registration of civil engineers and land surveyors is required by Chapter 284, 1947 Laws of Montana. Under this law individuals who desire to practice are required to demonstrate to the Board of Registration, which is composed of registered civil engineers, that they are competent and trustworthy. The purpose of the law is probably best stated in the words of the 1947 legislature in Sec. 1, as follows:

"In order to safeguard life, health, and property, and to promote the public welfare, any person in either public or private capacity practicing or offering to practice civil engineering in this State . . . shall be required to submit evidence that he is qualified so to practice and shall be registered as hereinafter provided . . ."

CALL FOR THIS CARD!

REGISTRATION CARD

State of Montana

BOARD OF REGISTRATION FOR CIVIL ENGINEERS AND LAND SURVEYORS

THIS IS TO CERTIFY, that John Smith
having given satisfactory evidence of the necessary qualifications
as required by the laws of the Legislative Assembly of the State
of Montana has been duly registered and is hereby authorized
to practice

Land Surveying
in the State of Montana

IN TESTIMONY WHEREOF, witness the signature of
the Chairman and Secretary under Seal of the Board.

Chairman

Secretary

The Certificate of Registration No. OOS will expire
Dec. 31, 1954, unless a renewal is issued in accordance with law.

or

REGISTRATION CARD

State of Montana

BOARD OF REGISTRATION FOR CIVIL ENGINEERS AND LAND SURVEYORS

THIS IS TO CERTIFY, that John Smith
having given satisfactory evidence of the necessary qualifications
as required by the laws of the Legislative Assembly of the State
of Montana has been duly registered and is hereby authorized
to practice

Civil Engineering
in the State of Montana

IN TESTIMONY WHEREOF, witness the signature of
the Chairman and Secretary under Seal of the Board.

Chairman

Secretary

The Certificate of Registration No. OOE will expire
Dec. 31, 1954, unless a renewal is issued in accordance with law.

Individuals who have qualified to practice Civil Engineering or Land Surveying work have one. Some are qualified to practice both. Those who are not qualified do not have one and cannot get one.

The above card is your assurance that the Board has certified the recipient to be properly qualified.

SEE THAT THE SEAL IS ON YOUR PLANS

Registrants are required to stamp their seal on all plans, plats, specifications, and reports which are filed with public authorities.

There are many efficient and trustworthy men in the State who are capable of doing essential sub-professional work. These instrumentmen, rodmen, chainmen, inspectors, and other sub-professional men are assistants and technicians who help the civil engineer and land surveyor in his work. There are also a considerable number of Engineers-in-Training. The latter have demonstrated their knowledge of the theory and fundamentals of civil engineering and are gaining the practical experience necessary to qualify them to take responsible charge of professional work.

Section 22 (f) of the Registration Law specifically exempts employees or subordinates doing civil engineering or land surveying work provided they work under the direct responsibility and supervision of a registered individual.

Each year some of these men have gained sufficient experience and knowledge to perform responsible and professional work and obtain certificates of registration after passing a written examination.

REPORT TO THE GOVERNOR

Honorable J. Hugo Aronson,
Governor of Montana,
State Capitol,
Helena, Montana

Dear Sir :

In compliance with Chapter 284, Thirtieth Legislative Assembly of Montana, we are pleased to submit herewith the Sixth Annual Report of the Montana State Board of Registration for Civil Engineers and Land Surveyors.

This report covers the activities of the Board during the fiscal year 1952-53, and represents a statement of receipts and expenditures as required by the Law.

The Board wishes to express its appreciation for the cooperation and assistance received from your office and other State Departments.

Respectfully submitted,
Montana Board of Registration for
Civil Engineers and Land Surveyors
A. E. ADAMI, Chairman
JOHN H. MORRISON, Secretary

**Sixth Annual Report
Montana State Board of Registration
Civil Engineers and Land Surveyors**

General

Chapter 284, Laws of Montana, providing for a State Board of Registration for Civil Engineers and Land Surveyors and for the regulation of the practice of civil engineering and land surveying in Montana was passed by the 1947 Legislature. The Law provides for a 5-member Board to be appointed by the Governor, each for a 5-year term.

The members of the Board during the past year have been:

A. E. Adami, Chairman.....	Butte, Montana
S. D. Waldorf, Vice Chairman....	Bozeman, Montana
John H. Morrison, Secretary.....	Helena, Montana
D. A. McKinnon, Member.....	Helena, Montana
J. G. Link, Jr., Member.....	Butte, Montana

Four Board meetings were held during the fiscal year 1952-53 as indicated below:

July 9, 1952.....	Helena, Montana
November 22, 1952.....	Helena, Montana
February 28, 1953.....	Helena, Montana
May 16, 1953.....	Bozeman, Montana

The following table shows a summary of the Board actions during the year. A total of 97 applications were handled. Of these 49 were approved, 3 failed the written examination, 2 were rejected. Of the 43 remaining applications, 17 represent Engineers-in-Training who took the examination in June, the rest represent civil engineers and land surveyors. These applications will be acted upon at the next meeting.

SUMMARY OF BOARD ACTIONS

1952-53

	Civil Engineer and Land Surveyor	Civil Engineer	Land Surveyor	Engineer in Training	Total
Applications on hand July 1, 1952.....	7	5		18	30
New Applications 1952-53.....	14	18	12	14	58
Reconsiderations		5	4		9
					<hr/> 97
Approved	8	3	18	15	49
Held	8	18	3	14	43
Failed Examination				3	3
Rejected or Withdrawn		2			2
					<hr/> 97

The following table shows registration statistics to date. As of June 30, 1953, a total of 441 individuals are registered as civil engineers and/or land surveyors. Since individuals who are qualified may register to practice in both classifications there are a total of 372 registered to practice civil engineering and 302 registered to practice land surveying. In addition 102 young engineers have been certified as engineers-in-training.

SUMMARY OF REGISTRATION STATISTICS

July 1947 — June 30, 1953

	Civil Engineer and Land Surveyor	Civil Engineer	Land Surveyor	Engineer in Training	Total

BALANCE CIVIL ENGINEERS FUND, June 30, 1953\$7,885.85

OTHER BUSINESS

In the fall of 1952, the question of whether or not the Registration Law for Civil Engineers and Land Surveyors should be expanded to include the other branches of engineering was carefully discussed at meetings held in Billings and Bozeman. At the meeting in Billings, which was primarily a meeting of the Montana Section of the American Society of Civil Engineers, the question of whether or not the Montana Section of the American Society of Civil Engineers favored an extension of the present Registration Law was presented to the group. This question was very freely discussed at an open meeting. The open meeting was attended by representatives of the American Institute of Electrical Engineers, and the American Society of Mechanical Engineers. After much discussion a committee was appointed to draw up a resolution which expressed the opinion of the majority of those present and at the next meeting of the group the following resolution was voted on and passed:

WHEREAS, the Montana Section, American Society of Civil Engineers, is of the opinion that a professional engineers licensing law will more adequately protect the public from engineering practice by unqualified individuals, and

WHEREAS, the Montana Section, American Society of Civil Engineers, has been informed that engineers of the other branches of the engineering profession are in accord with this belief, Now Therefore,

BE IT RESOLVED, that the Montana Section, American Society of Civil Engineers, appoint a committee to meet with representatives of the other branches of the engineering profession, and if it is found that a demand therefor exists, to cooperate with representatives of these other branches in drafting such a law, which shall be submitted to the various engineering groups for action. With respect to civil engineering, the draft shall be submitted to the Board of Directors of the Montana Section, American Society of Civil Engineers, which, if it approves such draft, shall provide for action by the Section. If favorable, the Section shall participate with other groups in recommending to the Legislature of the State of Montana that such law be passed, and under such circumstances the Montana Section, American Society of Civil Engineers, shall give support for the enactment of such law.

For the purpose of securing legal advice in preparation of the proposed draft, the committee is authorized to expend not more than one hundred dollars.

(Adopted by the Montana Section, American Society of Civil Engineers, at its Annual Meeting, October 4, 1952, at Billings.)

On November 8, 1952, in accordance with the directive of the Resolution, a committee of the Montana Section, American Society of Civil Engineers, met with representatives of the other

branches of engineering at a meeting in Bozeman. About twenty engineers attended this meeting. Representatives from the American Institute of Chemical Engineers, American Institute of Electrical Engineers, American Society of Mechanical and the American Institute of Mining and Metallurgical Engineers attended this meeting. After open discussion of the question it was decided that a subcommittee be appointed to draft a law expanding the present law and to be patterned after the Model law for submission to the engineering societies for their comments and/or approval. The draft of this law was prepared and on November 29, 1952, copies were sent to representatives of the various engineering societies and groups within the State of Montana.

As mentioned above this proposed draft was patterned after what is known as the Model Law. The Model Law is a law which as been prepared by the Founder Engineering Societies, and has been used in preparing the laws which are on the statutes in a number of states. These societies consist of: American Society of Civil Engineers, American Society of Mechanical Engineers, American Association of Engineers, American Institute of Consulting Engineers, National Society of Professional Engineers, National Council of State Boards of Engineering Examiners, Illuminating Engineering Society, Society of Naval Architects and Marine Engineers, American Institute of Chemical Engineers, American Institute of Electrical Engineers, American Society of Heating and Ventilating Engineers, American Institute of Mining and Metallurgical Engineers, and American Society of Engineering Education. This Model Law was drafted after much study by a committee from representation of the above named Societies. A study of the Model Law indicates that every effort has been made to draft a Law which will as is stated in the first paragraph of the Law, "In order to safeguard life, health and property and to promote the public welfare any person in public or private capacity practicing or offering to practice engineering and land surveying shall hereinafter be required to submit evidence that he is so qualified to practice and shall be registered as hereinafter provided." Therefore, using the Model Law as a basis, the law which was proposed by the committee has set standards and requirements for those who wish to become registered as engineers and/or land surveyors, at all times keeping in mind the main purpose of the Registration Law, that is the safeguarding of life, health, and property and to promote the public welfare.

The engineering societies, except the Mining and Metallurgical Engineers, in the State wholeheartedly approved the proposed law. A clause exempting the Mining and Metallurgical Engineers was inserted in the bill. A committee was then appointed to introduce the proposed bill into the 1953 session of the Montana Legislature.

The bill was introduced in the House and became known as House Bill No. 100. Committee hearings were held on the bill and it was approved by the committee and recommended for

passage by the House of Representatives. When the bill was introduced on the floor, opposition had been building up against the passage of any regulatory bill, consequently, the engineers registration or House Bill No. 100 was defeated on the floor of the House of Representatives.

The engineers in the State of Montana do believe that the passage of a proper bill regulating the practice of Engineering and Land Surveying is desirable. Montana is the last of the forty-eight states to have such a bill. When the Civil Engineers and Land Surveyors Bill was passed in 1947, Montana became the last state in the Union to recognize that such legislation was proper and desirable. The Engineers in the State believe that present efforts should be continued and that at the next session of legislature House Bill No. 100 should be reintroduced. It is the opinion of the majority of Engineers that as Montana grows and develops that such a bill will be necessary to do as the bill states "safeguard life, health and property and promote the public welfare of the State of Montana."

The above summary of the history of the last effort to obtain registration for all engineers in Montana is included in this annual report to indicate that the Registration Board of Civil Engineers and Land Surveyors now operating in the State of Montana are in favor of registration for all Engineers and Land Surveyors.

A. E. ADAMI, Chairman

JOHN H. MORRISON, Secretary.

The National Council of State Boards of Engineering Examiners

The national Council of State Boards of Engineering Examiners, founded on November 8, 1920, of which Montana is a member, is an advisory and coordinating agency established primarily to assist State Boards of Registration for Professional Engineers in a cooperative effort for more efficient and uniform administration of state registration laws. Its functions and activities include the certification of engineers, jointly with State Boards, for registration by endorsement; and service to State Boards, engineering societies and individual engineers as a national clearing house and information bureau for matters pertaining to the legal registration of professional engineers.

The National Bureau of Engineering Registration is operated as a function of the National Council of State Boards of Engineering Examiners, under the direction of a standing committee of the Council, with an Advisory Board of representatives from national engineering societies. It was established primarily to minimize the effort and expense of engineers desiring to secure registration in more than one state. The Bureau also constitutes a clearing house for state registration authorities, societies and others acting as a reliable source of verified information regarding professional records of engineers.

Engineering registration laws in some form are in effect in all states, District of Columbia, and in three territories of the United States—Hawaii, Puerto Rico and Alaska. Practically every Engineering Registration Board is a member and all Boards participate in the activities of the National Council of State Boards of Engineering Examiners.

Information in regard to the activities of the National Council and the work of the National Bureau of Engineering Registration may be obtained by writing to:

The National Council of State Boards of Engineering Examiners
